

Abdulrahman Ezzaldeen Mohammed Methqal

Data Entry & Statistics Assistant / Full Stack Developer

Motivated and self-driven third-year university student majoring in Computer Information Systems (CIS). I possess strong analytical skills, adaptability, and a deep interest in data management, programming, and system development. Passionate about building a successful career in the tech field, I specialize in web development using HTML, CSS, JavaScript, PHP, and Node.js, with hands-on experience in building full-stack applications.

Work Experience

Data Entry & Statistics Assistant Healthcare Sector (Hospital)

Present

- Assisted in managing and entering healthcare-related data ensuring 100% accuracy.
- Prepared comprehensive daily, weekly, and monthly reports for management.
- Managed structured data and supported network maintenance.
- Assisted in surveillance system configuration and troubleshooting.

Freelance Programmer & Full Stack Developer Self-Employed

Freelance

- Developed full-stack web applications using modern technologies (Node.js, PHP).
- Built responsive, user-friendly interfaces with HTML, CSS, and JavaScript.
- Designed and managed relational databases for various client projects.
- Created small automation tools and desktop applications for local businesses.
- Designed CCTV systems and local network configurations for various facilities.
